USPAP – Uniform Standards of Professional Appraisal Practice:

Every two years the Appraisal Foundation updates and publishes USPAP, the congressionally authorized standards and qualifications for appraisers, which provides guidance on valuation methods and techniques. USPAP advances the profession by ensuring that appraisals are independent, consistent, and objective. The Foundation's mission is to promote professionalism to ensure a high level of public trust in the valuation profession. ASA-credentialed appraisers are required to take an update course every two years to ensure their reports are compliant with the latest version of USPAP.
